

Dear Parent/Carer,

Every Friday, we will have a RAPID RECALL test for key number facts.

All Year 4 children will continue from the point at which they were working before the summer holidays.

However, all Year 3 children will start at Step 2. For some Year 3 children, the first few steps will simply revise and consolidate what they should already know, and such children will quickly move up through the steps to reach a level which will start to really challenge them. For others, the first level on Step 2 will provide optimum challenge from the outset.

Attached to this letter is an overview of the targets your child is expected to meet at his/her particular step.

Each week, the children will bring home their marked test sheet so that you are informed of their progress, and can support them in working towards their next target.

As always, thank you for your ongoing support. If you have any questions regarding RAPID RECALL, please speak to your class teacher.

Kind Regards,

Lower Junior Staff
