

Dear Parent/Carer,

By the end of Year 4, all children should have **mastered ALL multiplication and division facts up to 12**. By 'mastered', we mean that they quickly recall facts, without the need to count up, use fingers, etc.

The progression of facts is as follows:

2 x table facts/ 2 x table related division facts

7 x table facts/ 7 x table related division facts

5 x table facts/ 5 x table related division facts

8 x table facts/ 8 x table related division facts

10 x table facts/ 10 x table related division facts

9 x table facts/ 9 x table related division facts

mixed 2, 5 and 10 facts

mixed 7, 8 and 9 facts

3 x table facts/ 3 x table related division facts

11 x table facts/ 11 x table related division facts

4 x table facts/ 4 x table related division facts

11 x table facts/ 11 x table related division facts

6 x table facts/ 6 x table related division facts

mixed multiplication/division facts up to 12x

mixed 3, 4 and 6 facts

There will be a times table test every week. Your child will bring home the completed test paper each week for you to look at, so that you can help him/her move to the next level.

If you would like to discuss this further, please speak to your child's class teacher.

Kind Regards,

Lower Juniors
